

# Greening Program

---

The BID works with Bedminster businesses to find opportunities to create greener more attractive shopping streets. This stimulates shopper interest through encouraging them to stay longer (and spend more)

Grants are available and are subject to board approval with a preference to back projects that are high profile and improve the streets and the shops themselves.

## To Secure Funding – What we need from you:

Please email us ([george@towncentred.com](mailto:george@towncentred.com))

1. An image of your shop and the wall/area you have in mind
2. Details of the green project (if any, or if you require assistance)
3. Costings if you have any (including confirmation that you are at least matching 50% of the grant)
